WORK EXPERIENCE

Mondelez International

A leading snack manufacturing company in Vietnam

BD & Engineering Specialist (Contract)

6/2025 - 2/2026

- **Digital Projects (50%):** Responsible for low-code, low-cost digitalization programs at North Kinh Do (NKD) plant.
 - **Power Platform:** Work on paperless projects end-to-end from (1) initiating ideas to (2) building apps, dashboards and flows to (3) testing, roll-out and training. Key projects: Change Management, QA Daily Control, BDE Project Tracker.
 - **Digital Champion:** Played a key role as a CoE (Center of Expertise), supporting for micro-digital projects in Hanoi plant that helped colleagues from multiple functions to improve their productivity. Key projects include: Gate Entry License, Visitor Registration, Driver Qualification Test, Sales Return Quality Check, etc.
- **I2M Projects (50%):** Responsible for BOM trigger, PR & PO creation & management for I2M (Idea-to-Market) projects.
 - **PR & PO & BOM:** Created and tracked PR & PO for ingredients, new equipment for I2M projects. Raised BOM trigger on PEGA for transition to SAP. Ensured 100% ingredients & equipment on-time ETA & active BOM for multiple projects by working closely with stakeholders for commercial readiness.
 - **Project Management:** Helped manage the project timeline & documents of CAPEX projects in the plant, communicated timely and clearly for related PICs with 90%+ on-track rate. Created live dashboards for weekly report to BDE Lead to manage all department projects using complex DAX in Power BI, which helped reduce 50% time of DMS meeting with higher efficiency.

Hitachi Energy Vietnam

The subsidiary of a global leader in power and automation technologies

Warehouse Intern

1/2025 - 4/2025

- **Inventory Optimization (70%):** Contributed to and managed inventory optimization efforts of shopfloor team, improving stock accuracy and reducing holding costs for PGHV Bac Ninh plant.
 - **Power BI & Automate:** Developed comprehensive, real-time inventory reports using Power BI & Power Automate.
 - **ADONIS:** Visualized standardized inventory optimization practices using ADONIS for shopfloor workers.
 - **Project Management:** Remind stakeholders to follow timeline and report to project lead for ad-hoc cases.
- **Warehouse Operations (30%):** Participated in warehouse stocktaking and daily operations, gaining practical insights into inventory management and operational workflows, including data input on SAP MM (Materials Management) and SAP EWM (Extended Warehouse Management).

Heineken Vietnam

A leading beer manufacturing company in Vietnam

Digital Intern - Supply Chain

4/2024 - 10/2024

- **Digital Projects:** Worked on multiple digital projects of lab team in Hanoi brewery from initiation to roll-out to contribute to the national digitalization efforts of Heineken Vietnam.
 - **Power Apps:** Go & No-Go Taste Test App (for quality control), Chemical Preparation App (for printing chemical label), Daily Verification App (for equipment verification), Ticket Raising App (for raising request of multiple actions).
 - **Power BI:** Stock Management Dashboard, CAR (Corrective Action Request) Dashboard, and 4+ other dashboards for the supply chain function.
 - **Power Automate:** Created 10+ flows, incorporated into Power Apps and Power BI, for different tasks. E.g.: Sending automated emails, approval request, etc. with complex conditions.
